Journal of Comparative Physiology A

Sensory, Neural, and Behavioral Physiology

Volume 180 1997

Founded in 1924 by K. von Frisch and A. Kühn, Volumes 1–29 (1934) under the title "Zeitschrift für wissenschaftliche Biologie, Abt. C: Zeitschrift für vergleichende Physiologie". Volumes 30–76 (1972) published as "Zeitschrift für vergleichende Physiologie". Volumes 77–92 (1974) published under the title "Journal of Comparative Physiology". Beginning with Volume 93 (1974) called "Journal of Comparative Physiology A · Sensory, Neural, and Behavioral Physiology / B · Metabolic and Transport Functions". Beginning with Volume 123 (1978) Section B called "Biochemical, Systemic, and Environmental Physiology". Beginning with Volume 154 (1984), this journal was divided into two separate journals, A and B.

Honorary Editor

H. Autrum, München

Editorial Board

F.G. Barth, Wien (*Editor in Chief*)
B.J. Frost, Ontario
J.G. Hildebrand, Tucson, AZ
P.M. Narins, Los Angeles, CA
G. Neuweiler, München

Advisory Board

K. Aoki, Tokyo
H. Bennet-Clark, London
J.K. Bowmaker, London
J. Camhi, Jerusalem
J.A. Coles, Bordeaux
E. Eguchi, Yokohama
N. Elsner, Göttingen
A. French, Halifax
R. Hardie, Cambridge
H. Hatt, Bochum
F. Huber, Seewiesen
R. Hudson, München
M. Konishi, Pasadena, CA
M.F. Land, Brighton
S. Laughlin, Cambridge
M. Lehrer, Zürich
E.E. Marder, Waltham, MA
A. Michelsen, Odense
W.R.A. Muntz, Clayton (Melbourne)
D.-E. Nilsson, Lund
K. Pearson, Edmonton
M.V.S. Siegler, Atlanta, GA
D.G. Stavenga, Groningen
N.J. Strausfeld, Tucson, AZ
D. Varjú, Tübingen
R. Wehner, Zürich
T.J. Wiens, Winnipeg
H.H. Zakon, Austin

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that is publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0340-7594, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Ache BW → Wachoviak M
Adelsberger H, Dudel J: Patch clamp study and kinetic modeling on the most abundant chloride channel on distal fibers of crayfish opener muscle 53
Aho A-C: The Visual Acuity of the Frog (*Rana pipiens*) 19
Akers RP → Getz WM
Arikawa K, Suyama D, Fujii T: Hindsight by genitalia: photo-guided copulation in butterflies 295

Backhaus W → Gerster U
Baker TC → Vickers NJ
Barry SR → Nori VS
Barth FG → Friedel T
Bleckmann H → Vogel D
Blest AD, Stowe S: A phospholipase inhibitor, manoalide, and a G-protein activator, Mas-7, both affect the turnover of phototransductive membranes by crab retinas in darkness. With a model for the regulation of rhabdomeral membrane turnover 347
Borg-Karlson A-K → Wibe A
Brandt R → Giurfa M
Burda H → Credner S

Carlson JR → Riesgo-Escovar JR
Casaretto M → Gaus G
Cattaert D → Pearstein E
Christensen-Dalsgaard J → Jørgensen MB
Clarac F → Pearstein E
Conley RA → Coombs S
Coombs S, Conley RA: Dipole source localization by mottled sculpin. I. Approach strategies 387
Coombs S, Conley RA: Dipole source localization by the mottled sculpin II. The role of lateral line excitation patterns 401
Crawford JD: Feature-detecting auditory neurons in the brain of a sound-producing fish 439
Credner S, Burda H, Ludescher F: Acoustic communication underground: vocalization characteristics in subterranean social mole-rats (*Cryptomys* sp., Bathyergidae) 245
Cromarty SI, Derby CD: Multiple excitatory receptor types on individual olfactory neurons: implications for coding of mixtures in the spiny lobster 481

Davis FC → Viswanathan N
Derby CD → Cromarty SI
Derby CD → Steullet P
Dudel J → Adelsberger H

Elsner N → Heinrich R
Elsner N → Meyer J
Esser K-H, Lud B: Discrimination of sinusoidally frequency-modulated sound signals mimicking species-specific communication calls in the FM-bat *Phyllostomus discolor* 513
Ewert J-P → Glagow M

Faulkes Z, Paul DH: Coordination between the legs and tail during digging and swimming in sand crabs 161
Feng AS → Galazyuk AV
Feng AS → Penna M
Follett BK → King VM
Fonseca PJ, Popov AV: Directionality of the tympanal vibrations in a cicada: a biophysical analysis 417
Frazier SF → Larsen GS
Friedel T, Barth FG: Wind-sensitive interneurones in the spider CNS (*Cupiennius salei*): directional information processing of sensory inputs from trichobothria on the walking legs 223
Fujii T → Arikawa K

Galazyuk AV, Feng AS: Encoding of sound duration by neurons in the auditory cortex of the little brown bat, *Myotis lucifugus* 301
Gammie SC, Truman JW: An endogenous elevation of cGMP increases the excitability of identified insect neurosecretory cells 329
Gaus G, Casaretto M, Kass L: The effect of neuropeptides from Limulus on its circadian rhythm in retinal sensitivity 137
Gerster U, Stavenga DG, Backhaus W: Na^+/K^+-pump activity in photoreceptors of the blowfly *Calliphora*: a model analysis based on membrane potential measurements 113
Getz WM, Akers RP: Response of American cockroach (*Periplaneta americana*) olfactory receptors to selected alcohol odorants and their binary combinations 701
Giurfa M, Vorobyev M, Brandt R, Posner B, Menzel R: Discrimination of coloured stimuli by honeybees: alternative use of achromatic and chromatic signals 235
Glagow M, Ewert J-P: Dopaminergic modulation of visual responses in toads. I. Apomorphine-induced effects on visually directed appetitive and consummatory prey-catching behavior 1
Glagow M, Ewert J-P: Dopaminergic modulation of visual responses in toads. II. Influences of apomorphine on retinal ganglion cells and tectal cells 11

Hansen A → Zippel HP
Hartman HB → Tryba AK
Hattori T, Suga N: The inferior colliculus of the mustached bat has the frequency-vs-latency coordinates 271
Hedwig B, Heinrich R: Identified descending brain neurons control different stridulatory motor patterns in an acridid grasshopper 285
Heinrich R, Elsner N: Central nervous control of hindleg coordination in stridulating grasshoppers 257
Heinrich R → Hedwig B
Heitler WJ → Jellema T
Helversen D von, Helversen O von: Recognition of sex in the acoustic communication of the grasshopper *Chorthippus biguttulus* (Orthoptera, Acrididae) 373
Helversen O von → Helversen D von
Hennig RM, Weber T: Filtering of temporal parameters of the calling song by cricket females of two closely related species: a behavioral analysis 621

Jellema T, Heitler WJ: Adaptive reconfiguration of a reflex circuit during different motor programmes in the locust 659
Jones SM, Jones TA, Shukla R: Short latency vestibular evoked potentials in the Japanese quail (*Coturnix coturnix japonica*) 631
Jones TA → Jones SM
Jørgensen MB, Christensen-Dalsgaard J: Directionality of auditory nerve fiber responses to pure tone stimuli in the grassfrog, *Rana temporaria*. I. Spike rate responses 493
Jørgensen MB, Christensen-Dalsgaard J: Directionality of auditory nerve fiber responses to pure tone stimuli in the grassfrog, *Rana temporaria*. II. Spike timing 503

Kass L → Gaus G
King VM, Follett BK: *c-fos* expression in the putative avian suprachiasmatic nucleus 541

Larsen GS, Frazier SF, Zill SN: The tarsopretarsal chordotonal organ as an element in cockroach walking 683
Lemon WC, Levine RB: Multisegmental motor activity in the segmentally restricted gin trap behavior in *Manduca sexta* pupae 611
Lemon WC, Levine RB: Segmentally distributed metamorphic changes in neural circuits controlling abdominal bending in the hawkmoth *Manduca sexta* 597
Levine RB → Lemon WC
Levy I → Levy M
Levy M, Levy I, Susswein AJ: Respiratory pumping in *Aplysia fasciata* in natural and artificial tide pools 81
Li W, Sorensen PW: Highly independent olfactory receptor sites for naturally occurring bile acids in the sea lamprey, *Petromyzon marinus* 429
Lin W-Y → Penna M
Lindauer M → Tautz J

Lud B → Esser K-H
Ludescher F → Credner S

Maler L → Zupanc GKH
McClelland BE, Wilczynski W, Rand AS: Sexual dimorphism and species differences in the neurophysiology and morphology of the acoustic communication system of two neotropical hylids 451
